Future actions are needed
to enable full access to high quality palliative
care for older people

by services providers

by policy-makers

by advocacy organisations

by the civil society

by researchers

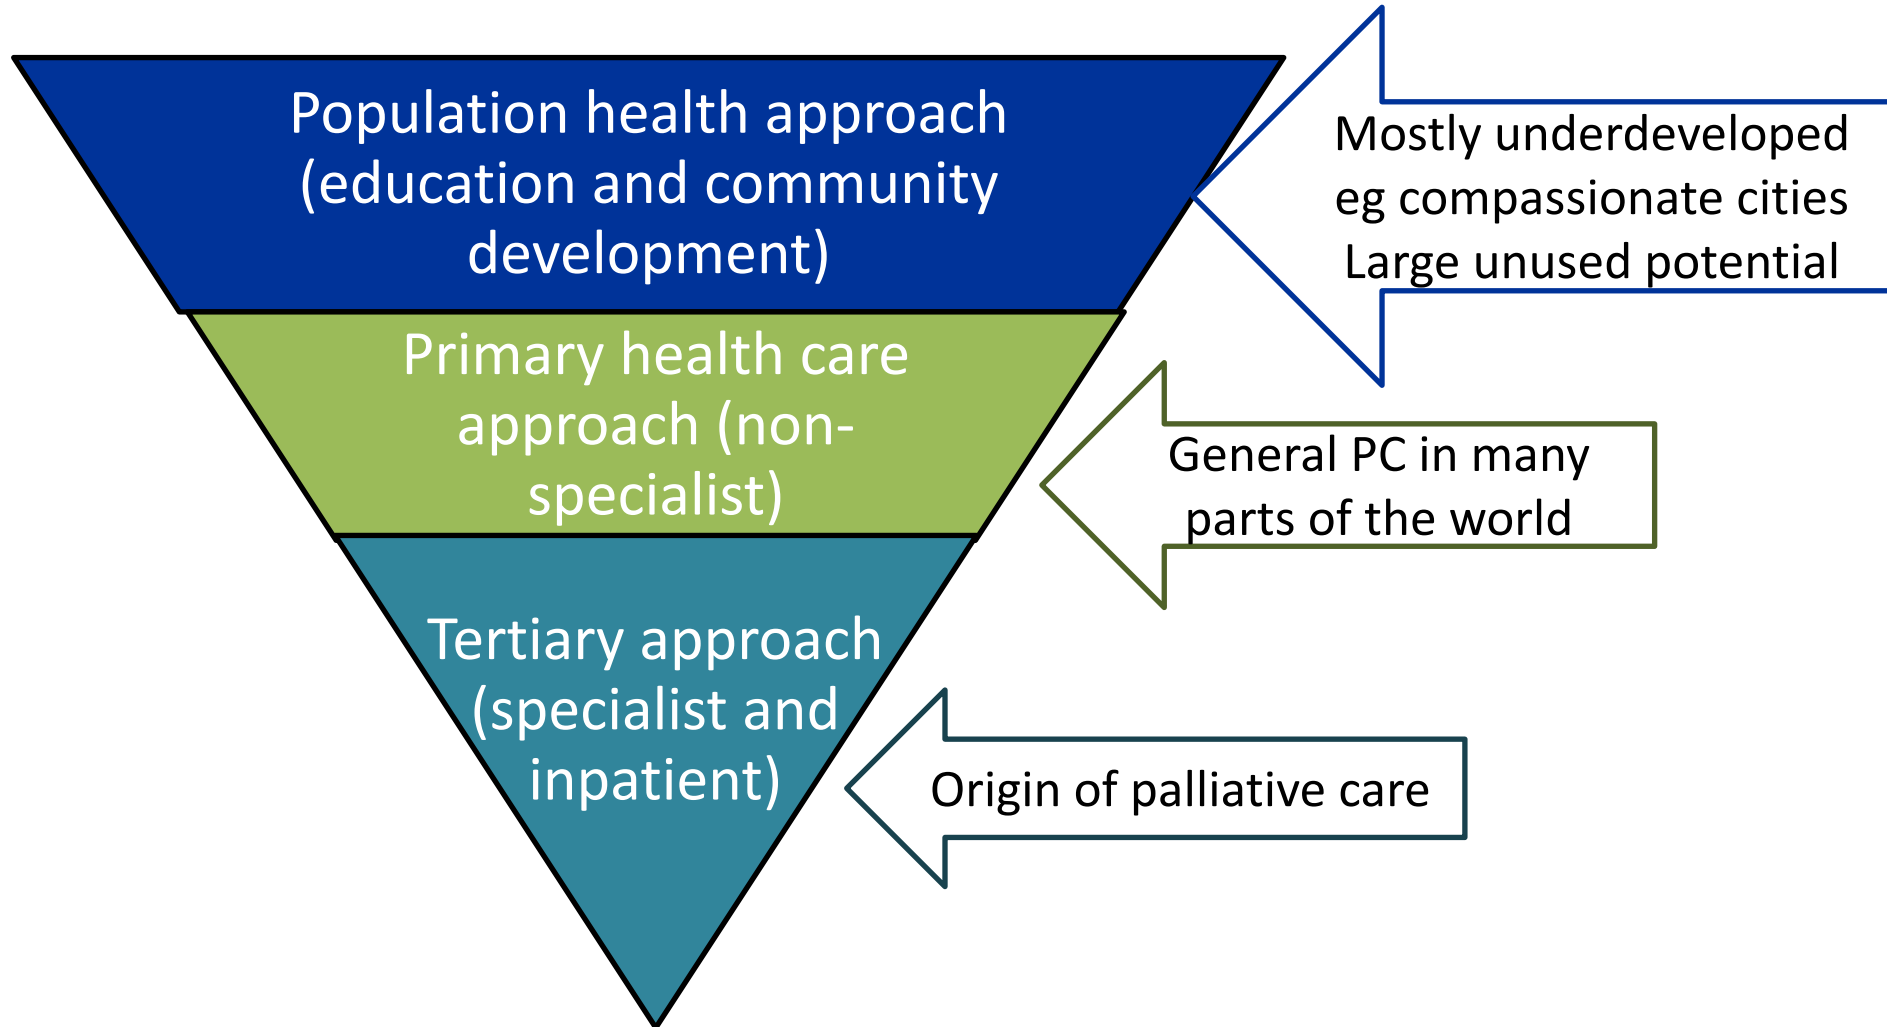

The Key Broad Challenges

Recognizing the limits to service provision

Promoting palliative care to the wider public
health sphere of policy, practice, and
language

Understanding and facilitating the principle
that end of life care is everyone's
responsibility – it is a CIVIC responsibility

Palliative care as a public health approach

The Public Health Concepts

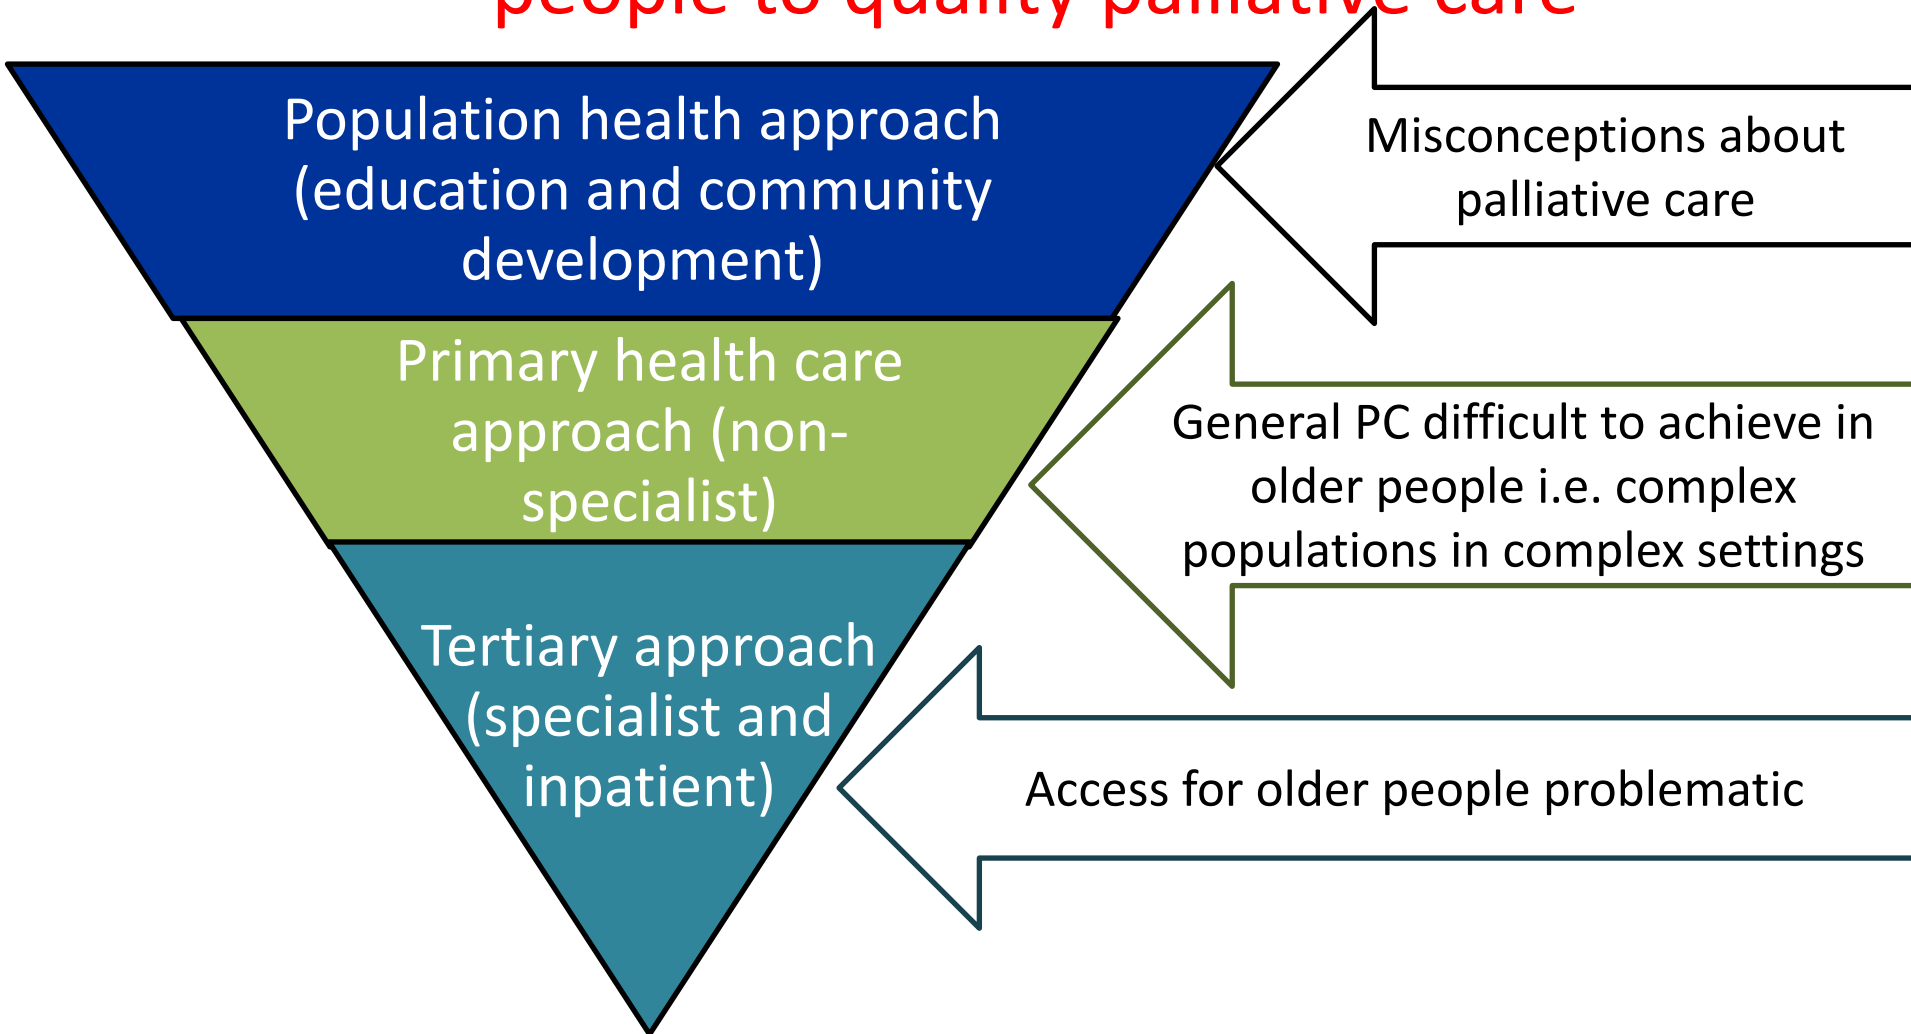

Prevention

Harm-reduction

Early Intervention

Sustainability

Key challenges enabling a full access for older people to quality palliative care
